

TABLE OF CONTENTS

General Information Section

1. Introduction and Acknowledgements
2. Letter from the Medical Director
3. Medical Direction

Routine Patient Care Section

1. Routine Medical Care Protocol
2. Routine Trauma Care Protocol

Medical Section

1. Abdominal Pain
2. Abnormal Birth Presentation
3. Airway Obstruction
4. Allergic Reaction and Anaphylaxis
5. Asystole
6. Behavioral Emergencies
7. Bradycardia
8. Cardiac Arrest
9. Chest Discomfort
10. Coma/Altered Mental Status
11. Combative Patient
12. Delirium Tremens
13. Diabetic Emergencies
14. Gastrointestinal Bleeding
15. Gynecological Emergencies
16. Hypertensive Emergencies
17. Hyperventilation
18. Hypovolemic Shock
19. Imminent Delivery
20. Narrow Complex Tachycardia
21. Neurogenic Shock
22. Post-Resuscitation Care
23. Pre-Eclampsia/Eclampsia
24. Pulmonary Edema
25. Pulseless Electric Activity
26. Respiratory Distress
27. Seizure
28. Septic Shock
29. Stroke
30. Toxic Ingestion or Exposure
31. Ventricular Fibrillation and Pulseless Ventricular Tachycardia
32. Wide Complex Tachycardia
33. Sickle Cell Crisis

Trauma Section

1. Burns
2. Chest/Abdominal Trauma
3. Drowning/Near-Drowning
4. Extremity Trauma and Traumatic Amputation
5. Eye Trauma
6. Head Injuries
7. Hyperthermia/Heat Emergencies
8. Hypothermia
9. Major Trauma Triage Criteria
10. Pain Management
11. Sexual Assault
12. Taser Injuries
13. Trauma Arrest

Pediatric Section

1. Pediatric Airway Obstruction
2. Pediatric Allergic Reaction and Anaphylaxis
3. Pediatric Asystole-PEA
4. Pediatric Bradycardia
5. Pediatric Coma/Altered Mental Status
6. Pediatric Diabetic Emergencies
7. Pediatric Drowning/Near-Drowning
8. Pediatric Fever
9. Pediatric Hypothermia
10. Pediatric Major Trauma Triage Criteria
11. Pediatric Narrow Complex Tachycardia
12. Pediatric Neonatal Resuscitation
13. Pediatric Pain Management
14. Pediatric Post-Arrest Stabilization
15. Pediatric Respiratory Distress
16. Pediatric Seizure
17. Pediatric Shock
18. Pediatric Suspected Maltreatment
19. Pediatric Toxic Ingestion or Exposure
20. Pediatric Ventricular Fibrillation and Pulseless Ventricular Tachycardia
21. Pediatric Wide Complex Tachycardia
22. Pediatric Sickle Cell Crisis

Non-Transport Section

1. Do Not Resuscitate
2. Field Pronouncement
3. Non-Transport Protocol

Procedures Section

1. 12-Lead EKG Procedure
2. AED Procedure
3. Cervical Spine Immobilization Procedure
4. Chest Decompression Procedure
5. EMS Provider or Physician Intervener Procedure
6. Endotracheal Intubation Procedure
7. Intraosseous Infusion Procedure
8. Intravenous Access Procedure
9. Mark 1 Kit Procedure
10. Pulse Oximetry Procedure
11. Suctioning Procedure
12. Synchronized Cardioversion Procedure
13. Transcutaneous Pacing Procedure
14. King LT Procedure
15. End Tidal CO₂ (EtCO₂) Monitoring
16. Endotracheal Introducer Procedure (Bougie)
17. First Responder Antibiotic Dispensing Procedure
18. Continuous Positive Airway Pressure (CPAP)
19. Mechanical Advantage Tourniquet (MAT)
20. Bolin Chest Seal
21. Hemostatic Dressing

Medications

1. Adenosine
2. Albuterol
3. Amiodarone
4. Aspirin
5. Atropine
6. Dextrose 50% and Dextrose 25%
7. Diazepam (Valium)
8. Diphenhydramine (Benadryl)
9. Dopamine
10. Epinephrine
11. Fentanyl
12. Furosemide (Lasix)
13. Glucagon
14. Lidocaine
15. Lorazepam (Ativan)
16. Magnesium Sulfate
17. Morphine
18. Naloxone (Narcan)
19. Nitroglycerin
20. Oral Glucose
21. Oxygen
22. Pralidoxime (2-PAM Cl)

City of Cleveland: Department of Public Safety

Medications – Continued

23. Promethazine (Phenergan)
24. Sodium Bicarbonate
25. Thiamine
26. Vasopressin (Pitressin)
27. 5% Dextrose In Water (D5W)

Appendix

1. Appropriate Hospital Transport Guide
2. Glasgow Coma Scores and APGAR
3. Rule of Nines
4. Pediatric Weight Based Medication Chart
